

One Stop Shop - Government Representatives

Governments have responded to COVID-19 by restricting movement and business activities in order to initially 'flatten the curve' of public health system pressures. These restrictions have had a dramatic impact on businesses, and as a result governments have also introduced a number of assistance programs to help businesses weather the storm. Find out if these may offer some benefits for your business as you look to recover.

Government Representatives

Click [here](#) to speak with a volunteer from one of our government partner agencies, who will discuss your business' needs and options. This may include the following:

- Availability of Government assistance programs
- Eligibility requirements for Government funding/loan options, and how to apply
- Industry-specific guidance on surviving the pandemic
- Government advice for planning for the next economic disaster

The Lethbridge Region Economic Recovery Task Force has partnered with government representatives and agencies to provide you with information and advice on available programs to help your business. Click or call today to schedule a time to discuss via telephone or videoconference, or to meet with someone in our Physical Support Centre.*

* Availability of the Physical Support Centre will depend on Alberta's progress on relaxing mitigation and social distancing measures, and will be updated here as further information becomes available.
